Igor Usovich

Senior Frontend / Fullstack Developer

📍 Munich, Germany

📧 igor.usovich89@gmail.com | [LinkedIn](#)

Summary

Passionate and detail-oriented Senior Frontend/Fullstack Developer with over 10 years of experience designing, developing, and maintaining scalable web applications. I thrive in cross-functional teams, where I bring both technical leadership and hands-on coding skills. My strengths lie in React, Next.js, TypeScript, and modern frontend ecosystems, but I also enjoy working across the full stack with Node.js and various databases.

I'm highly proactive in knowledge-sharing, mentoring juniors, refining developer workflows, and driving code quality. I value clean architecture, performance optimization, and collaborative product development.

Tech Stack & Skills

- **Frontend:** React, Next.js, TypeScript, Storybook, Tailwind CSS, Material UI

- **Backend:** Node.js, Express, GraphQL, REST APIs

- **Databases:** MySQL, MongoDB

- **Testing & Tools:** Jest, Cypress, Git, Webpack, Docker

- **CI/CD:** GitHub Actions, GitLab CI

- **Other:** Agile/Scrum, Clean Code, Component Architecture

Experience

BAUHAUS Deutschland

–

Senior Frontend Developer

📍 Munich, Germany | 📅 July 2023 – Present

- Frontend development of a scalable e-commerce platform from the ground up.

- Collaborate daily with product managers, designers, and backend engineers in an Agile setup.

- Building and maintaining a custom, reusable UI component library using **React**, **Storybook**, and **Tailwind CSS**, ensuring consistent design across the platform.

- Implementing responsive UIs and optimizing for performance and accessibility.

- Introducing architecture improvements like atomic design and modular folder structures.

- Conducting regular code reviews and mentoring junior developers.

- Tools: **React**, **TypeScript**, **Next.js**, **Node.js**, **Tailwind CSS**, **Storybook**, **Jira**, **GitHub Actions**.

adviqo GmbH

–

Senior Frontend Developer

📍 Berlin, Germany | 📅 Oct 2019 – Jun 2023

- Developed customer-facing platforms and internal tools that connected users with professional coaches and advisors.

- Worked closely with cross-functional teams to scope features, plan releases, and implement solutions with clean, maintainable code.

- Architected and optimized components using React + Next.js, focusing on SSR and performance.

- Integrated GraphQL APIs and handled dynamic data rendering with pagination, filters, and caching strategies.

- Actively contributed to frontend best practices, pairing sessions, and design reviews.

Fyber

–

Software Engineer

📍 Berlin, Germany | 📅 Sep 2016 – Sep 2019

- Developed applications, including reporting dashboards for advertisers and publishers.

- Built internal tools using React and Node.js to visualize campaign performance and metrics.

- Contributed to React Native app; and full-stack features using PHP and MySQL.

- Participated in continuous improvement of frontend architecture and developer tools.

Previous Roles

- **Exadel**: Developed Apple TV and browser-based apps (PHP, JS).

- **Weavora**: Built browser extensions and a time tracking platform (PHP, Symfony).

- **Excubia**: Developed CRMs for American banks (Yii, Symfony, Angular, Doctrine).

- **Telecontact / Telesoft / Inis Soft**: Worked on call-center tools, web apps, and education systems.

- **Soft Product**: Java-based web crawler/parser for real estate listings.

Education

Belarusian State University

🎓 Bachelor's in Mathematics and Computer Science

📅 2006 – 2011

Languages

- Russian: Native

- English: Professional

- German: Limited working

Certifications & Conferences

- 🧠 *JSNation Workshop* – "Thinking & Coding Algorithms" by Kyle Simpson

- ⚛️ *React Summit Workshop* – "Advanced React" by Nik Graf

- 🤖 *Next.js & GPT AI* – Udemy Course: Building AI apps with Next.js
